## THE BUILD

Your Suncamper is built from the highest quality materials to ensure our products are finished immaculately. With a solid steel frame serving as your base, your Suncamper Motorhome is robust & ready for your Australian adventures.

Keeping you secure is Suncamper's strong 4S composite constructed fibreglass walls. Sandwiching fire retardant insulation, these walls are cut down to the mm on our state of the art CNC machine. Sculpted & assembled through 30+ years of R&D our shells are designed to keep water & dust out no matter the environment.

Light-weight plywood joins together with precision for expertly crafted cabinetry, that is kitted out with state of the art appliances, installed by experienced tradesmen in their craft.

We pride ourselves on our build quality, ensuring your Suncamper is set for all your adventures for many years to come.
