SUNCAMPER MOTORHOMES

Suncamper has made recreational vehicles for nearly half a century and our goal has never changed: Create quality that provides freedom and the ultimate lifestyle...

Australian owned and operated, we pride ourselves on motorhomes specifically built to conquer Australia's harsh conditions. From concept to creation, every Suncamper is the result of decades of experience from some of the Industry's most highly regarded innovators.

Built using proven techniques backed by industry and engineering certification, every Suncamper is manufactured to the highest standards. The result is excellent value, long service life, and high regard at resale time. It's what makes a Suncamper a Suncamper...

SAXBY V-SERIES

Saxby V-Series redefines mid-size luxury motorhomes. Less than seven metres long, it is open-plan living at its best and comes with a choice of chassis – Iveco Daily, Fiat Ducato or Mercedes-Benz Sprinter – plus the option of four-wheel drive.

Thinking drinks or dinner for four, with wrap-around views? Think Saxby. Thinking secure storage for two bikes? Think Saxby. Thinking electric roof bed that stores out of the way; room for the grandkids to sleep over and an ensuite with separate shower? Think Saxby. In fact, whatever you're thinking about in a mid-size motorhome for pleasure or even business, think Saxby.

THE MOTORHOME RANGE

Nearly all our motorhomes and campervans are car-licensed, meaning no special drivers licence is required. Models evolve over time to ensure optimum design and functionality. Storage space is maximized and Suncamper are constantly sourcing the latest technologies to improve the travelling experience.

THE BUILD

All motorhome models boast a steel frame base and aluminium, fully welded framework for the walls, rear, nose and single-piece roof. Walls and roof are fully insulated with fire-retardant foam and pressed. Framework is extensive so every fitting is screwed into a solid spot, not into insulation. The walls are more than 30mm thick and the roof is more than 45mm. This is more than double (and in some cases triple) other manufacturers.

Due to constant development, features and information may change without notice.
